WHY PAY MORE?

EASY: With so many companies and plans available, choosing an electricity supplier can be a confusing, time consuming task. Navigate Power can help you streamline the process, by bringing you the most competitive rates and plans, from multiple reputable retail energy suppliers (“RES”).

RELIABLE: All of Navigate Power’s RES’s are licensed with the State of Ohio and regulated by the Public Utilities Commission of Ohio (“PUCO”). Most importantly, your local utility company (i.e. AEP, DPL, FES, etc.) will still be your “poles and wires” company, responsible for the delivery, maintenance, and meter reading services—nothing changes.

SAVINGS: Your bill will still come from your local utility company. The only difference is it will be lower than what you’re accustomed to paying. Remember, it’s not about a change of service; it’s about paying less for the exact same electric service!

IT’S AS EASY AS 1,2,3

Step 1: Submit a copy of your electricity bill to your local Navigate Power consultant. Your consultant will also ask for primary business and contact information

Step 2: After 36 to 48 hours, your consultant will return with competitive pricing from multiple suppliers, explaining the savings and advantage of each program.

Step 3: Choose a plan and supplier. You’ll be enrolled and you’re savings will begin on your next billing cycle.
